## About

I'm an experienced engineer who's shipped projects and products for some of the biggest brands and companies in the world. Web, mobile and desktop - I work in all environments with creativity, flexibility and reliability.

I'm capable of leading teams, working independently, or fitting in. Years of agency and freelance experience have conditioned me to adapt to and work with just about any tech, team or timeline.

I thrive in creative and friendly environments that give space for experimentation, independent thought and supportive collaboration.

## Skills

I have many years of experience in a variety of technologies, but I primarily focus on the JavaScript ecosystem in all of it's forms and formats. Here are a few technologies I've enjoyed working with recently and throughout my career:

- JavaScript, TypeScript, HTML, CSS
- React, React Native, Vue, Electron
- Node.js, Express.js, Passport.js

- PostgresSQL, NoSQL, SQL
- Next.js, Vercel, Supabase, Firebase
- GraphQL, REST

## Experience

### Senior Lead Software Engineer, *Koalition Interactive*　　　　　　2018 - Present | Remote, USA

- Shipped 20 projects and products for 26 clients using 23 different technologies
- Develop a wide variety of software across tech stacks and environments for mobile, web and desktop
- Lead teams and mentor developers to encourage growth, confidence and productivity
- Architect solutions for all aspects of development: frontend, backend, databases, servers and APIs
